

Southampton & District Transport Heritage Trust

The Trust is associated with around 20 vehicles, and is actively involved in the preservation and restoration of these vehicles from the Southampton and local surrounding areas. One of their recent projects has involved getting 1 – JOW 499E back on the road after 20 years, and this has been successful. An aim of the Trust is to restore 255 – JOW 928, but help is needed with regard to missing window frames. For more information on this group please visit www.sadtht.co.uk
